## CALCUL DES QUANTITÉS DE MOULURES - BEREKENING VAN DE HOEVEELHEID LIJSTEN

Pour les moulures : mesurez le périmètre de la pièce et ajoutez 10% pour prévoir les pertes lors de la coupe des angles.

Pour les cimaises et les plinthes : mesurez le périmètre de la pièce moins la largeur des ouvertures telles que les portes et les fenêtres. Prévoyez dans ce cas une perte de 5%.

Voor lijsten : meet de omtrek van de kamer en voeg 10% toe om rekening te houden met verliezen bij het snijden van de hoeken.

Voor kaderlijsten en plinten : meet de omtrek van de kamer min de breedte van openingen voor deuren en vensters. Hou rekening met een verlies van 5%.
